COMMONWEALTH OF DOMINICA

ADDENDUM TO AGREEMENT
Dated October 1, 1999 Between
THE GOVERNMENT OF THE COMMONWEALTH OF DOMINICA
AND
COMMONWEALTH OF DOMINICA MARITIME REGISTRY, INC.

AN AGREEMENT made the 07th day of OCTOBER 2005 ***BETWEEN*** **THE GOVERNMENT OF THE COMMONWEALTH OF DOMINICA,** represented herein by Mr. Reginald Austrie, the Honourable Minister for Housing, Lands, Telecommunications, Energy and Ports, Government Headquarters, Roseau, Dominica (hereinafter referred to as "the Government") of the ONE PART ***and*** **COMMONWEALTH OF DOMINICA MARITIME REGISTRY INC. (DMRI)** a company duly registered under the laws of the State of Delaware, in the United States of America represented herein by Eric R. Dawicki (hereinafter referred to as "DMRI") of the OTHER PART

WHEREAS:

1. The Government and DMRI entered into an Agreement on October 1, 1999 (hereinafter called the Principal Agreement) with the objective of establishing an international ship and maritime corporate registry.

2. Further agreements have been reached between the Parties and it is now necessary to amend the Principal Agreement to reflect the matters agreed on.

IT IS THEREFORE AGREED AS FOLLOWS:

1. The Principal Agreement is amended as follows:

   a) Clause 1.2 (c) recorded on page 4 of the said Principal Agreement is hereby deleted.

   b) Clause 1.3 (a) (ii) is amended by deleting the word "contracted" as it appears in the clause before the word "surveyors" so that the clause reads as follows: "DMRI will provide oversight and audit of annual Dominica inspections to be done by surveyors in the local port areas."

2. The Principal Agreement is amended by inserting as part of SECTION 3 captioned MARITIME ADMINISTRATION the following:
   a) "Clause 3.3 - The Government shall consult with DMRI on the appointment of the Chairman to the Commonwealth of Dominica Maritime Administration."

   b) "Clause 3.4 – The Government shall consult with DMRI on the appointment of the Maritime Administrator."

   c) "Clause 3.5 – DMRI shall nominate two persons on the Board of the Commonwealth of Dominica Maritime Administration (MARAD)".

Received by NSD/FARA Registration Unit 07/26/2018 2:37:34 PM

Received by NSD/FARA Registration Unit 07/26/2018 2:37:34 PM

3. This Addendum shall be read as one with the Principal Agreement as amends the Principal Agreement only to the extent herein contained.

IN WITNESS WHEREOF the parties have hereunto set their hands on the dates hereinbefore written.

Signed by

HON. REGINALD AUSTRIE
Minister for Housing, Lands, Telecommunications, Energy and Ports

Commonwealth of Dominica International Maritime Registry

"The Flag of Responsibility"

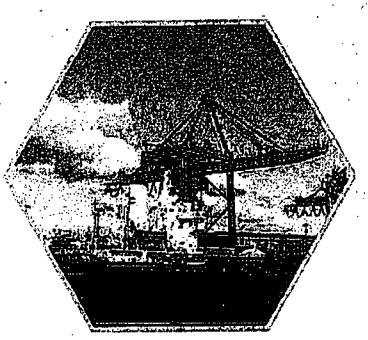

REGISTRATION INFORMATION

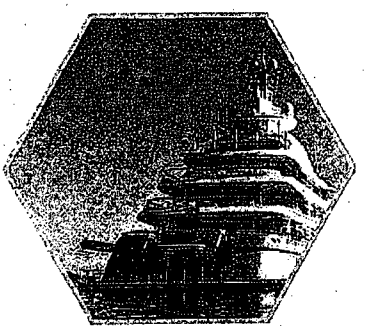

Ship Registration

The Commonwealth of Dominica Maritime Registry Inc. (DMRI) was established in 1998 with the goal of promoting maritime safety and facilitation of commerce. DMRI is committed to providing the highest quality ship registry services found anywhere in the world.

Ship owners and operators in today's international maritime transport industry require an established and efficient Administration that:

- Provides a registration process that is compatible with operators and their vessels;
- Is available 24 hours a day 7 days a week;
- Employs knowledgeable and competent technical staff;
- Provides a respected regulatory atmosphere regarding maritime safety, security and environmental protection;
- Works closely with port State control regimes to minimize vessel detention risk and;
- KEEPS THE SHIPS MOVING.

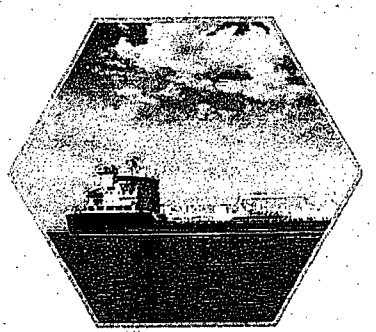

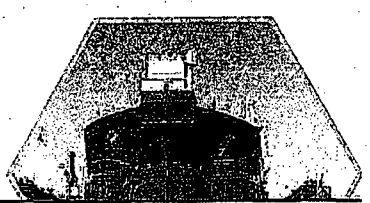

Mortgage Recordation and Finance

In addition to unparalleled service, the Commonwealth of Dominica's maritime legislation and regulations are some of the most favorable to ship owners in the world. New mortgage tacking legislation provides for the cost-saving continuation of a preferred mortgage status of foreign mortgages when a vessel is transferring from another jurisdiction.

A Flag State must solve problems, not create them, and this is why DMRI prides itself on providing the best service available. Taking a proactive approach allows DMRI to reduce vessel risk assessment for P&I and Port State Control inspections. Owners can remain confident that the right choice has been made in the Commonwealth of Dominica International Maritime Registry with our friendly dedicated staff and superior service.

International Maritime Registry

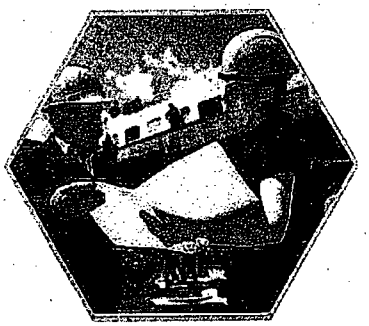

"The Flag of Responsibility"

MARINER INFORMATION

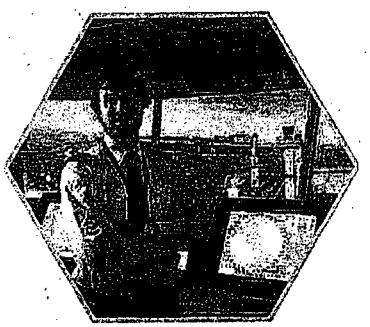

The Commonwealth of Dominica is recognized by the United Nations' International Maritime Organization as to giving complete and full effect of the STCW Convention for issuing both Original Certificates of Competence and Endorsing Certificates of Competence of other recognized countries.

Mariners seeking original Certificates of Competence from the Commonwealth of Dominica Maritime Administration can do so by completing required sea-service, training and/or approved in-service training. The Commonwealth of Dominica recognizes training from approved training institutions, as well as through our "In-Service Training" modules accompanied by a written examination. Both modules are currently delivered through our approved Maritime Education and Training Center, Northeast Maritime Institute in Fairhaven, Massachusetts, USA which has satellite locations internationally.

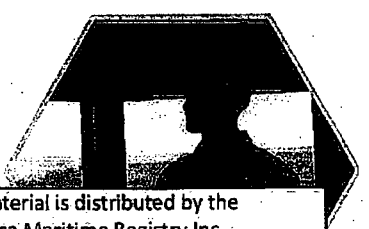

Some of the benefits of the Commonwealth of Dominica mariner certification program include:

- Competitive licensing costs;
- STCW IMO White Listed mariner training, licensing and certification program;
- ITF White Listed;
- Worldwide network of approved training and assessment centers;
- Online verification and fraud proof licensing system;
- 24 hour support available.

The Dominica Maritime Registry Inc. also provides quality, timely service for mariners seeking endorsements through recognition of their foreign license. Upon receipt of verification from the foreign flag, The Commonwealth of Dominica Maritime Administration issues the endorsements within 24 to 48 hours.

This material is distributed by the Dominica Maritime Registry Inc., on behalf of the Government of Dominica. Additional information is available at Department of Justice, Washington, D.C.

FSI INFORMATION

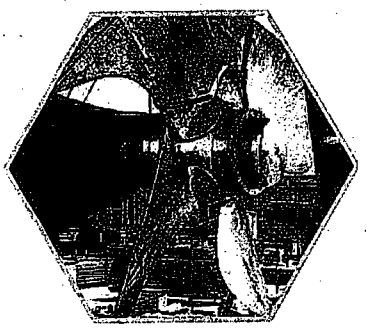

Dominica Flag State Inspection Program

The Flag State Inspection Program was created to assist ship owners and operators with the safe operation of their vessels and to reduce the number of deficiencies and detentions received during Port State Control inspections. The program incorporates multiple inspection types that are necessary to prevent, identify, and rectify any issues related to safety, security and environmental protection.

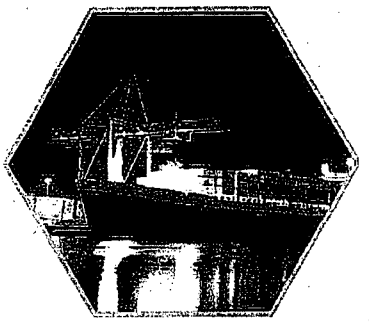

The program is not intended to replace surveys for the issuance of class and statutory certificates. Such activities will continue to be performed by duly recognized organizations. The purpose of the Flag State Inspection Program is:

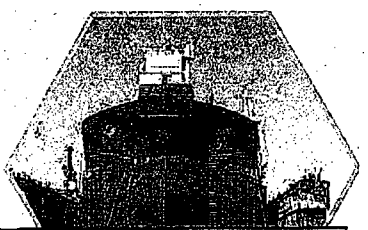

- To verify that a vessel is being maintained in general compliance with international conventions and Flag State national rules and regulations;
- To provide feedback to owners and operators that will help them avoid problems and unnecessary delays by Port States;
- To reduce casualty risk by statistical analysis through the Administration's inspection data to proactively identify non-conformities.

As a continued effort to reach our goal of zero deficiencies and detentions, the Dominica Maritime Registry Inc. has also developed the Dominica Detention Prevention Program. This program entails daily monitoring of our vessels' performance and identifying vessels that are having difficulty complying with mandatory instruments. These vessels are placed in the Detention Prevention Program and additional support is provided to the owner and operator.

This material is distributed by the Dominica Maritime Registry Inc., on behalf of the Government of Dominica. Additional information is available at Department of Justice, Washington, D.C.

STATUTORY PROGRAM INFORMATION

Dominica Flag State Statutory Program

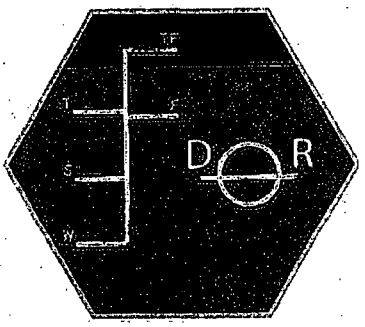

Dominica Maritime Administration offers a cost effective Statutory Program for vessel surveys and certification. This program has been developed to provide a financially viable and technically superior option for ship owners. Dominica's Block Fee Statutory Program is a proven success among shipowners who have chosen to work directly with the Flag to maintain the safety and security of their ships. The program includes initial, annual, periodical, and renewal surveys and can be further tailored to meet the needs of individual clients.

Benefits of the "Block Fee" Statutory Program

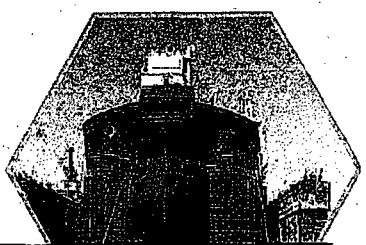

- Block fee allows low, annual payments that are easy to manage
- Worldwide network of qualified surveyors
- Direct and constant contact with the Flag State and technical staff
- IACS quality service without IACS fees
- No increase in risk assessments
- Faster response to inquiries and needs

Managers have been highly satisfied with the services provided and remain appreciative that a Flag State has assumed the responsibility of these services rather than delegate them to a Recognized Organization.

Cost

The Commonwealth of Dominica Maritime Adminstration offers a five year block fee covering most services for the vessel, which will be divided into five annual lump sum payments.

"The Flag of Responsibility"

DOMINICA IBC INFORMATION

International Business Company

The Commonwealth of Dominica's international corporate registry is one of the fastest growing and most efficiently managed corporate registries today.

The International Business Act of 1996 allows for convenient and easy establishment of an International Business Company (IBC) in Dominica. A Dominica IBC can be created by a single person and there is no requirement for local shareholders or directors for a Dominica IBC.

Offshore companies formed in Dominica enjoy exemption from income and capital gains taxes, as well as withholding, transfer and stamp taxes. There are also no requirements for annual meetings or audit requirements and there are no requirements to file annual records. Confidentiality is important and the names of directors and shareholders are not part of any public record.

Dominica IBC's are perfectly tailored for today's shipowner and formation of a Dominica IBC is both fast and economical.

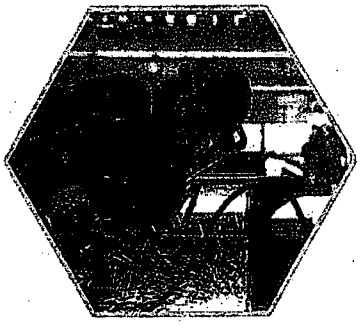

Advantages of a Dominica IBC

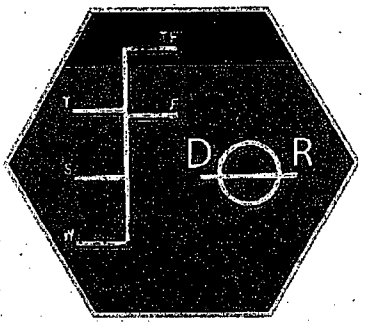

International companies who choose to base out of Dominica enjoy advantages including tax exemptions, capital and structural flexibility, and member confidentiality.

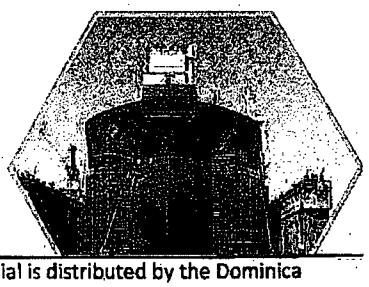

The Dominica International Business Companies Act passed in 1996 was aimed at creating a competitive environment for companies looking for an offshore jurisdiction to base their operations.

Since the Act's initial adoption in 1996, progressive amendments have been passed to further enhance the nation's attractiveness and viability to prospective entrepreneurs.

A Message from The Registry

Dear Maritime Representatives,

Welcome to the Commonwealth of Dominica Maritime Registry. It is a great privilege for me to offer ship owners, operators and mariners an opportunity to join an international shipping registry that prides itself on serving the shipping community with the best of support possible. Our service to our customers is second to none! We have constantly been told by new customers that they wish they would have flagged their vessels with the Commonwealth of Dominica years ago.

Our dedicated staff and global offices understand the necessity of at customer service focused Maritime Administration. Customer service is our number one priority. We don't expect any of our customers to have to wait for answers for days or weeks - we answer all emails within a 24 hour period. We are on call 24 hours per day, 7 days per week. Our website is a useful tool for our customers - www.dominica-registry.com

Our mariner and seafarer training and certification program is exceptional by worldwide standards. We have a global training network through our parent company, Northeast Maritime Institute www.northeastmaritime.com, which has affiliate schools in the Commonwealth of Dominica, Republic of Georgia, Thailand, India, Bangladesh, and many more to come. Each facility falls under the management of NMI's headschoolin the U.S., which is approved by the Massachusetts Department of Education and the United States Coast Guard. NMI is also ISO 9001:2008 compliant.

Shipowners can have peace of mind when hiring mariners who hold original Commonwealth of Dominica Certificates of Competence. Our mariner certification program is listed on the International Maritime Organization's "White List" of Nations as a fully compliant program under the International Convention on Standards of Training, Certifications and Watchkeeping for Seafarers (STCW) for issuance of original and endorsed Certificates of Competence.

I hope that you will consider our Maritime Registry for the flagging of your vessels. I'm positive that you will be happy, the customer service will amaze you and our support will ensure that your profits grow!

Eric R. Dawicki, President

Anti-Piracy Assistance

The Commonwealth of Dominica takes piracy seriously.

Our programs are among the most comprehensive in the world.

We have balanced the requirements for compliance and international treaties with a high performance and asset protection protocol that will ensure your vessels are safe. Ship owners and crew of any merchant vessel traveling under the flag of the Commonwealth of Dominica must feel safe.

The Commonwealth of Dominica opposes any kind of restraint, depredation or seizure of its vessels. Any aggression considered an act of piracy against any Dominica flagged vessel shall be dealt with swiftly and assertively. To counter the growing incidents of piracy off the Hon of Africa and the Arabian Sea, the Administration has developed a multi-tiered assistance package to meet the needs of vessels traversing High Risk Waters.

Package Includes:

- Support in development of vessel specific risk assessments and security plans
- Online access to the latest piracy assessments throughout the world
- Convoy coordination assistance
- Port State entry coordination
- Optional placement of DMR trained security personnel with a pre-approved firearms package
- Direct security assistance through international military forces operating in the region

Technical Services

Dominica International Maritime Registry offers technical and statutory services to our fleet of vessels. Our global network of inspectors and surveyors allows for easy survey coordination at competitive pricing.

Our technical staff are dedicated to ensuring vessels are properly serviced and documented in the most efficient manner possible. Our staff will work with clients to schedule services at appropriate times and locations, liaise with Classification Societies and other Recognized Organizations to ensure needs are being met, and assist with LRIT compliance and support. We will communicate with Port State Control offices and other government organizations to facilitate commerce and continued trade so that our clients can safely maximize their economic opportunities.

Received by NSD/FARA Registration Unit 07/26/2018 2:37:34 PM

Statutory Services

The Commonwealth of Dominica Maritime Administration offers a five-year Statutory Service Program which is managed directly by the Office of Maritime Affairs. We offer vessel owners a competitive statutory survey and certification package that is a cost-effective and efficient solution to consolidating vessel services and mitigating costs.

Through the Administration's headquarters and technical service locations worldwide, the statutory survey and certification package includes initial, annual and renewal surveys which are carried out and supported by highly qualified surveyors and naval architects.

To support vessel owners in their efforts to maintain economic viability, this program is offered in five annual installments through a Block Fee Agreement. The Block Fee Agreement also includes the cost of issuance for both the interim and full term certificates as well as Annual Flag State Inspections.

The Commonwealth of Dominica Maritime Administration is proud to offer this service directly to vessel owners rather than delegate the responsibility and customer service to third party organizations. Administrations should carry out this responsibility directly in order to look out for the interests of the ship owner.

Flag State Inspection and Detention Prevention Program

The Flag State Inspection Program was created with the goal of assisting ship owners and operators with the safe operation of their vessels and to reduce the number of deficiencies and detentions received during Port State Control inspections. The program incorporates multiple inspection types that are necessary to prevent, identify, and rectify any issues related to safety, security and environmental protection.

The program is not intended to replace surveys for the issuance of class and statutory certificates. Such activities will continue to be performed by duly recognized organizations. Each inspection has a different purpose, but the final goal is to assist the ship owner/operator in complying with the application of international standards prescribed by a host of treaties and conventions such as Safety of Life at Sea (SOLAS) and the Marine Pollution Convention (MARPOL) as well as national regulations. The main goals of the program are to assist owners and operators to conduct their vessels safely, efficiently and cost effectively.

As a continued effort to reach our goal of zero deficiencies and detentions, Dominica has also developed the Detention Prevention Program. This program entails daily monitoring of our vessels' performance, and identifying vessels that are having difficulty complying with mandatory instruments. These vessels are placed in the Detention Prevention Program and additional support is provided to the owner and operator.

International Maritime Organization Participation

It has always been recognized that the best way of improving safety at sea is by developing international regulations that are followed by all shipping nations. Since the mid-19th century onwards a number of such treaties have been adopted. Several countries proposed that a permanent international body should be established to promote maritime safety more effectively but it was not until the establishment of the United Nations itself that these hopes were realized.

In 1948 an international conference in Geneva adopted a convention formally establishing the International Maritime Organization (IMO).

The Commonwealth of Dominica is a regular participant at the IMO's Committee and Sub-Committee meetings. The IMO is an important body that assists the Administration with the ability to gauge the maritime safety and security regulatory environment. Owners or Representatives wishing to sion the Commonwealth of Dominica Delegation may request to do so and attend these meetings as part of our commitment to ensure that their voices are heard.

Mariner Licensing and Certification

The Commonwealth of Dominica is a duly recognized nation by the Secretary General of the United Nations' International Maritime Organization as to giving complete and full effect of the STCW Convention by issuing both Original Certificates of Competence and Endorsing Certificates of Competence of other recognized countries.

The application process with the Commonwealth of Dominica's simple and clear with online forms and checklists of requirements. Complete applications are processed efficiently and in a timely manner. Mariners seeking endorsements of their foreign certificates of competency will find it an easy process to complete.

The Registry has recently completed major improvements to its mariner licensing system, including an updated mariner database system which includes online certificate verification. Our investment into a fraud-proof licensing system also includes unique security paper for the issuance of certificates which incorporates numerous security features. Dominica has also increased the formal international recognition of its STCW Certificates of Competence by other countries and is currently implementing the 2010 STCW Manila amendments.

Mariner Education and Training

Mariners seeking original Certificates of Competence from the Commonwealth of Dominica can do so by completing required sea service, training, and approved "In-Service Training". "In-Service Training" modules accompanied by a written examination are an option for some mariners.

Northeast Maritime Institute, our parent company, is the primary training provider for the Commonwealth of Dominica International Maritime Registry. The Institute works to ensure that students complete the training necessary to receive their Commonwealth of Dominica Certificate of Competence in order to work in communities world-wide and to develop awareness for safe and effective shipping.

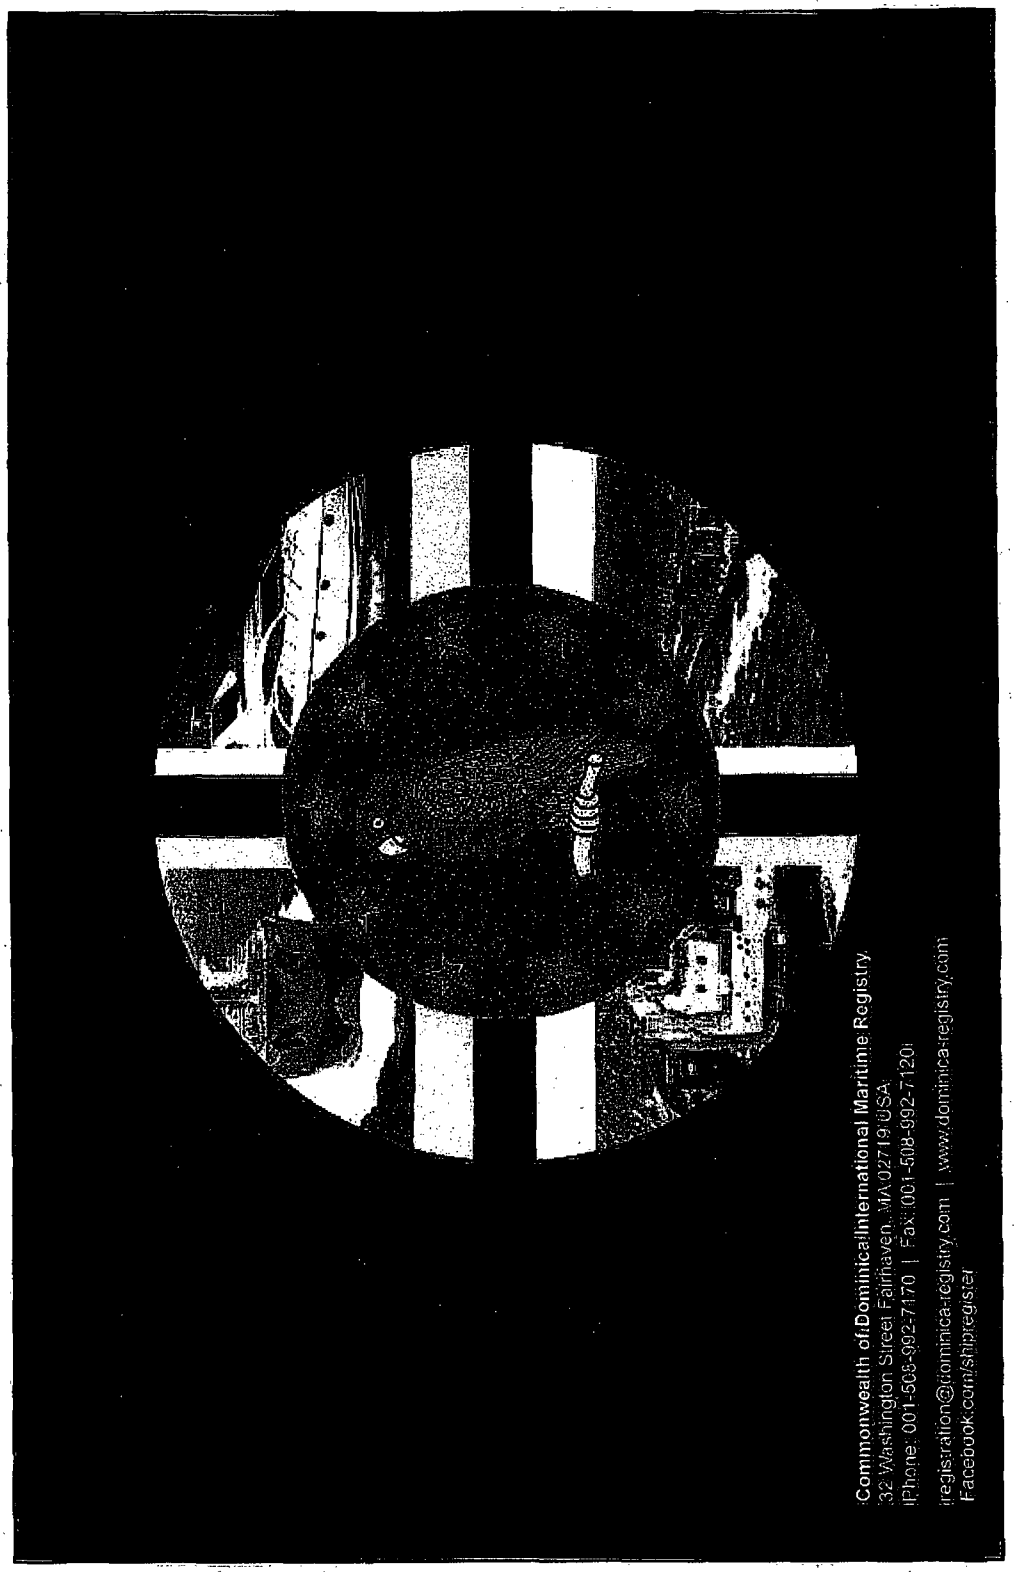

Northeast Maritime Institute, headquartered in the U.S., operates STCW compliant courses globally, including the United States, Europe, Asia and the Caribbean basin. Northeast Maritime Institute is an organization that evolves around the needs of its students and customers and is dedicated to ensuring they receive top quality maritime education and training as well as the highest dedication of service from its staff and administration.
